

Candidate Bio – Brian Jewett

My volunteer involvement with Waterloo Minor Soccer has spanned two decades. It's my experience that the community service provided by Waterloo Minor Soccer is valuable to the physical and social development of our youth. It is a continued pleasure to be involved in the life of our community and the game of soccer.

I'm a recently retired IT specialist from the federal government. My two adult children continue to be involved in the life of this club.

I've served on the board of directors for the last seven years in a range of capacities including four years as the club president. WMSC has evolved tremendously and improved our range and quality of programming over that time:

- Incorporated professional, qualified coaching staff to support coach and player development
- Financial support of coach certification
- Expansion of levels of competitive play (OPDL)
- WMSC obtained and held the highest standard of recognition for club excellence from our governing body
- Introduction of skills instruction for players at the recreational, grassroots, and competitive levels
- Development of grassroots programming
- Introduced accessibility programming within our recreation program.

I have also served and chaired club committees and acted as a league liaison on behalf of the club. I also participated on league boards within Ontario outside of my club volunteer activities.

I have coached within the recreational, grassroots, and competitive programs.
