

Candidate Bio – Chris Frengos

My name is Chris Frengos and I have been a board member with Waterloo Minor Soccer for four years. In my years of service, I have focused on our children in WMSC and how we can give them the maximum experience. That goes from development of a player in our system as well as a person in a group setting.

I have been the recreation liaison for a couple of years and have developed a great relationship with our programs manager, and our primary focus was to give all children the best experience possible. When required I have helped coaches run sessions, and have helped in the recruitment of coaches. Working with the recreational programs has been a great pleasure for me.

I have coached for nine years within our club. From recreation to competitive; I love coaching and helping kids develop into young adults.

My goal as a board member is to help have structure for our children from the recreational level to competitive. We have also defined a clear pathway for players who want to pursue this beautiful game to its highest level. We have put systems in place to give all levels of players maximum learning opportunities.

I hope you will vote for me and I will continue to make sure we focus on our youth, and how we can maximize their experience at WMSC.

Regards,
Chris Frengos
