I am a resident of Waterloo proudly involved with Waterloo Minor Soccer Club for over ten years.

As a long-time coach and volunteer, coaching multiple teams in the WMSC indoor and outdoor recreational programs, I always strive to provide the best possible coaching and skills that I can offer, and ensure that I identify, support, and enhance the potential of every individual player. I strongly believe that all players can be properly challenged, positively encouraged to accept challenges to improve their skill sets, and set appropriate goals and objectives---all life skills.

Through my occupation, I have substantial experience in team leadership, personnel management, budget management, quality control, problem-solving, and possess excellent analytical and progressive thinking skills.

I am confident that in working together, we can improve areas of concern that have been expressed by Club members, such as declining enrollment in club programs, appropriate budget management, a more comprehensive coach training program tailored to new coaches, and more dynamic membership involvement in decision-making with transparent communications to the membership on policy and procedure changes.

I believe our Club can reach the highest standards that we all desire and deserve, and I am confident we can do this together.

Thank you for your consideration.
