U10 Girls Grassroots Gold Team

June 18th 2018

There was a lot of excitement on June 16th and 17th at the Woodstock Festival. The U-10 Girls Gold Team participated in the Walter Kitchener Festival in Woodstock. It was the second festival that they played in this summer. The girls were excited to play and were an absolute joy to watch.

The first game was on a smaller field against Chatham Strikers, our team was dominating the play with most of the possession. The passing and attacking was swift and accurate. The girls were showing how they can move the ball out the back and across the various positions on the field. Afterwards, a lot of parents from other teams told us how well they thought our team played.

The second game was against Sarnia on a much larger field with bigger nets. The afternoon was warm and the opposition proved to be much more challenging. The team was able to step up to the challenge and got used to the open spaces and faster pace. The team played hard and got stuck into many tackles to win the ball. They kept a really nice shape and were able to get into position quickly.

Overall, the girls had lots of fun and showed how much they are improving as they progress through the season. It was nice to see our players work as a team and make their own decisions based on the different situations they are challenged with. It was also satisfying to see that they have absorbed the skills they have developed in our training sessions.

Waterloo United would like to Congratulate our U10 Grassroots Girls for having a successful weekend patiating in the Woodstock Festival!
